STUDENT EMPLOYMENT PAYMENT STRATEGY

At CreatEd Institute, our goal is to come up with creative solutions to help our students successfully shoulder the financial investment of their education. Because of the flexible schedule of our program, students are capable of working part-time and continuing in their studies and interaction with the CreatEd community. To help you plan effectively, we have compiled an illustration of a student employment strategy. These numbers assume that a student will work during all weeks of CreatEd class time other than the Study Abroad Trip to Italy and the Endurance Expedition trip.
